This meeting will focus on gaining awareness and recognizing the safety benefit of the new enteral feeding system with ENFit connectors. It will be a “working meeting” as a region for North Carolina and neighboring states to collaborate on this patient safety initiative.

Your attendance and representation at the meeting will be valuable. We will further explore how organizations can collaborate as a region to prepare for the transition while discussing the benefits of a broader regional plan for North Carolina and beyond. Sharing of implementation plans, identified barriers and successes is welcomed.
