

THE SHEPHERD PROGRAM

A hospital's guided approach to system-wide ENFit conversion.

This specially tailored program is customized per hospital. We'll hand a hospital their initial tools and resources to kickstart their conversion; while supplying an experienced consultant and staying on for the journey to complete transitioning. You decide where you begin; whether it's establishing education & awareness amongst your facility, requesting help in the middle of conversion to share lessons learned, or combating myths and establishing the facts when it comes to patient safety and your new endeavor.

WHAT'S INCLUDED

ENFit Conversion
Experienced
Consultant

Stakeholder
Kickoff Meeting

Vendor Samples &
Demonstration

GEDSA Resources &
Permissions of Use

GEDSA Support &
Involvement

Who can sponsor or purchase the program:

A vendor or supplier may sponsor a hospital's Sheperd Program.

Are you a hospital that wants to be sponsored by a vendor? We recommend approaching your sales rep and providing them this flyer and access to our website to start the process.
