

ENFit® Live!

Join us July 26th for the The Who, What, When, Where, and Why of ENFit via a live webcast with onsite facilitated sessions available.

Presented by: Zevex, Inc., a Moog company

Approved for: Up to 3 continuing education hours

CE Program Features:

- Explain the background of ISO 80369-3 enteral connector standard (trademarked as ENFit), review examples of historical misconnections, and review organization support statement
- Report current data on ENFit adoption rates across the country
- Review the 2022 feeding set transition adapter removal timeline and strategize ways to connect during this transition time period
- Provide examples of the processes and best practices that can help with the transition to ENFit as well as illustrate potential challenges and solutions when transitioning to ENFit
- Review frequently asked questions
- Provide live visual demonstrations of ENFit connection types, cleaning techniques, and homecare prescription
